GLOBAL SCHOOL

SALEMPUR

Digital Fest Report

Gyansh Global School, Salempur successfully organized its Digital Fest on March 27-28, 2026 providing a dynamic platform for students to showcase their creativity, innovation and technical skills. The two-days event transformed the campus into a hub of technology and learning.

Students actively participated in various categories including Website Development, Game Development, Robotics, Artificial Intelligence (AI), and Internet of Things (IoT). Their projects reflected originality, problem-solving abilities, and a strong understanding of modern technologies.

The event was evaluated by an esteemed panel of judges:

Mr. Randhir Singh Chahal (Head of Mechanical Engineering, Bhai Gurdas Institute, Sangrur), Prof. Dr. Divesh Kumar (Electrical Engineering, Bhai Gurdas Institute, Sangrur), and Mr. Yasir Arafat (Director, Viver Technologies, Malerkotla).

Participants were judged on innovation, technical knowledge, presentation, and practical application. Outstanding performers were awarded 1st, 2nd, and 3rd positions.

The Digital Fest was a grand success, inspiring students to explore emerging technologies and think creatively. The school extends heartfelt gratitude to the management, staff, judges, and students for making the event memorable.
